STCW Including 2010 Manila Amendments: Stcw Convention and Stcw Code IMO Publishing

A comprehensive review of the 1978 STCW Convention commenced in January 2006 and culminated in a Conference of Parties to the STCW Convention, held in Manila, Philippines, from 21 to 25 June 2010, that adopted a significant number of amendments to the STCW Convention and STCW Code. The amendments update standards of competence required, particularly in light of emerging technologies, introduce new training and certification requirements and methodologies, improve mechanisms for enforcement of its provisions, and detail requirements on hours of work and rest, prevention of drug and alcohol abuse and medical fitness standards for seafarers. This publication contains the Final Act of the 2010 Conference of Parties to the 1978 STCW Convention, resolutions adopted by that Conference, and a complete, consolidated text of the STCW Convention, including its original articles, revised annex and supporting STCW Code. The Convention articles and annex provide the legal framework within which mandatory technical standards contained in part A of the STCW Code are applied. Part B of the Code provides guidance to assist those involved in educating, training or assessing the competence of seafarers or who are otherwise involved in applying STCW Convention provisions. While not mandatory, the guidance given has been harmonized through discussions within IMO, involving, where appropriate, consultation with the International Labour Organization. Observance of this guidance will contribute to achieving a more uniform application of Convention requirements. All parts of this publication must be studied to understand the intent of the Convention fully and to give complete effect to the minimum global standards of knowledge, understanding, experience and professional competence desired by the States that are Parties to it, the industry itself and the general public.
