Would you like to increase your dirty talk vocabulary skills in your bedroom?

Do you want to get in touch with your inner sex goddess?

You will also discover some squirting and G-spot tips you never knew about! This book also teaches you how to improve your sexual health.

So why is dirty talk so important? The truth is however strong a love relationship you have with your man, you are bound to go through some rough patches. Additionally your sexual relationships could become too dull and predictable.

During these rough patches you may feel as if you are just going through the motions without any passion and satisfaction. You do not look forward to your bedroom action like you used to when you were dating. Your relationship becomes too comfortable and you both start taking each other for granted. Your heart screams for passion and excitement but instead you feel numb and cannot figure out the reason you feel this way. Worse you feel guilty because you do not want to burden your man with your fears. You do not know what to say to him. Of course you still love him. He has always been there for you and has always been dependable. You feel you should be thankful that you are still together especially when your best friend spends hours crying on your shoulders saying what a douchebag some men can be.

However you cannot get over the feeling that you want something to happen to help you escape your feeling of despair. As an escape you immerse yourself in your favorite romantic novel. Here you can transport yourself to a world where all your fantasies are satisfied.

Your loins seem to melt when the lover in your exotic book talks dirty to his girl and you feel a sense of excitement. You even imagine that you are the girl in the book. During your spare time you daydream and replay the images from your novel in your mind. These images make you realize that you want to make things hotter in bed.

Still you do not have the courage to ask your man how he feels about talking dirty. You feel embarrassed even thinking about it. In particular you dread the thought that he would think you are a slut if you even

gathered the courage to introduce such a topic to him. The truth is that you've had a strict upbringing and have always been taught that it is not the woman's place to take the lead in a sexual relationship. As a result you are not sure if you should shock your partner with your demands. After all society expects that nice girls should not entertain such dirty thoughts!

So why am I writing this book? The main reason is that the feelings and events described above happened at a certain time in my life. I was the girl who went through those experiences. Even before this I had some horrible experiences as a timid 19 year old teenager. My first boyfriend dumped me because he said I was not sexy enough. He said I did not do the things he liked when we made love. I was very hurt because I felt that he was the one for me.

It was such a terrible time. I felt as if my world had come to an end. I ballooned up in weight as I started to binge eat. The worst part was that I completely lost my confidence. It took a long time before I felt I was ready to pick up the pieces of my life. Indeed I am heavily indebted to my girlfriends who helped pull me through my agony.
