**Policing: A View from the Street** Peter K. Manning, John Van Maanen

Emphasizing the active nature of law enforcement even to its title, this book assembles 18 articles from the top ethnographers in the field to develop a perspective on policing based not on administrative or legalistic theories, but on firsthand, sociological data...a view from the street.

Policing opens with a section on the role and mandate of the police; moves to the context of policing in America, including studies of patrol, detective, and administrative policing; to strategies of policing, to the practice of policing, and a final section on socializing for policing.
