Situational Analysis: Grounded Theory After the Postmodern Turn Adele E. Clarke

Situational Analysis: Grounded Theory After the Postmodern Turn provides an innovative approach to grounded theory useful in a wide array of qualitative research projects. Extending Anselm Strauss's ecological social worlds/arenas/discourses framework, this book offers researchers three kinds of maps that place an emphasis on the range of differences rather than commonalities, as found via the traditional grounded theory approach. These maps include situational, social worlds/arena, and positional maps.
