Review: Quiet: The Power of Introverts in a World That Can't Stop Talking by Susan Cain Brainy Book Reviews

In reviewing the best new books of 2012, one commonly recognized title was the self-help book *Quiet*, by Susan Cain. Ms. Cain's work graced a variety of national top-10 lists including those by the magazines *People*, *Inc*, and *O* (Oprah) among others.

She summarizes five years of research and argues that our society has ignored a veritable powder-keg of untapped talent. Susan Cain studied at Princeton and Harvard Law School, and she practiced corporate law for seven years representing a variety of large, multinational corporations including Goldman-Sachs, and General Electric.

In her profession she learned that solitude can be a catalyst for innovation and that quiet leadership is not an oxymoron. Her primary message is that society has greatly overlooked the intellectual gifts of the introverted, and this claim is strongly supported throughout her book.

Brainy Book Reviews: Designed for smart people whose desire to improve their businesses and themselves exceeds the available time they have to do so, Brainy Book Reviews gives listeners an efficient way to quickly go through and digest famous and well-loved titles.
