What Alice Forgot: by Liane Moriarty | Summary & Analysis

This is a Summary & Analysis. Liane Moriarty's piece is an upbeat, funny and smart novel that asks the question, "How much do our experiences shape who we are?" Alice Love is an average stay-at-home mother who falls off an exercise bike during a spin class and hits her head. The injury causes her to forget everything that happened to her in the last ten years. She has had three children and become an almost unrecognizable version of herself.

Moriarty is a witty and thoughtful writer, and she sets up a situation full of opportunities for humor, emotion and earnest questioning. What would our younger selves think of our lives now? Would they even recognize us? She explores these questions with tenderness and sympathy for both Alices, younger and older.

This companion offers the following:
