Implementing Change: Patterns, Principles, and Potholes (3rd Edition)

Gene E. Hall, Shirley M. Hord Ph.D.

Implementing Change: Patterns, Principles, and Potholes (3rd Edition) Gene E. Hall, Shirley M. Hord Ph.D.

A research-based guide for educators to the practical methods of understanding, evaluating and facilitating the change process.

Significantly revised based on student and instructor feedback, the new third edition of *Implementing Change* continues to examine the ways in which change processes are experienced by those "on the ground" while adding new features, new material and the most current research. Based primarily on the Concerns Based Adoption Model (CBAM), this user-friendly text focuses on introducing constructs that can be used by those engaged in facilitating change processes as well as those who are evaluating and studying change.

Rather than maintaining a bird's eye view of change processes, each chapter introduces a research-based, research-verified construct about change that captures the complexity of implementing change and the diversity of reactions to it. With a stress on pedagogical aids, each chapter incorporates practical examples, sample research, case studies, reflection questions and examples of common roadblocks to change.
