Thailand: Why You Shouldn't Retire To Thailand (Thai Life Book 5) The Blether

Can you afford to get it wrong?

Most people enter into retirement with a nest egg and a list of things to do. Moving abroad is often close to the top of that list - whether it be for a warmer climate, a new culture, or to eek out our nest eggs a little bit further in a low cost economy. The transition can be far more difficult than people expect - where unexpected problems vie with realities ignored to make life a misery.

The good news is that there are plenty of books out there that will encourage you, and tell you why you should retire to Thailand. The bad news is, they don't tell you about the downsides that see far too many people's dreams crash and burn.

This book is not negative, it is a sober look at what awaits for many. While we can't plan for the unexpected, we can plan our way around realities. And that's the whole point of this book - to examine the realities that trip people up - and to ensure that you have considered those realities before making the big move.

Not many of us can afford to get this decision wrong - and that's why I wrote this book. Add to your retirement planning by downloading "Why You Shouldn't Retire To Thailand," now.
