The Easiest Way to Meet and Pick Up Girls - Ever!! Dusty White

This book is not going to sell you a bunch of hype that by reading it you will instantly become a master of manipulation, or the most-popular guy any woman as ever met. *It won't turn you into a rock star or fill your head with fantasy* that by memorizing a few tricks you can suddenly become Superman. This book teaches you specifically how to approach ANY GIRL you want to meet, no matter where you are, under any circumstances. **This book takes all of the guesswork out of meeting women.** It is not about relationships or raising a family, and it is not another hokey book on how to have some mysterious "secret power" over women. This book teaches you how to get a date tonight--without having to spend ANY MONEY. *Anyone can do this.* You will approach women any time, anywhere, instantly getting them interested in knowing you, without feeling nervous or having to resort to pick-up lines. We won't make you a "guru of getting girls." We will get you "dates."

You don't need to be at a bar or club to meet women, and you will ALWAYS have better success meeting girls where YOU are comfortable--not at some place you go because some idiot told you there were girls there. **This book shows you what to say first, how to say it, and what to say after that.** This is the most important part of any seduction. You have to establish a basic interaction with a woman--not blind-side her with stupid pick-up lines or muscle flexing--or you will end up with her telling ALL of her friends what a dork you are. Good luck trying to get dates with them after that. Next we show you a clever way to cross the touch barrier, **where she welcomes your touch** and eagerly listens to your every word. *You can't do this with a pick-up line.* From here you learn, and practice, how to go for the number or an instant date, and even what to do if her friends or boyfriend shows up while you are working your game. Packed with humor, easy-to-follow guidelines and illustrations, this is a book every guy should read *before reading any other pick-up book.* Sure, other books have advanced brainwashing techniques, mind-manipulating tricks, and "extreme confidence" rituals, but this book covers the basics and helps you master them for less than the cost of any date you will ever take a girl on. It's easy, and it's fun--and it has worked for thousands of men all over the world.
