**Ethical Practice in Child and Adolescent Analysis and Psychotherapy: Protecting Safety in a Therapeutic Environment** Anita G. Schmukler, Paula G. Atkeson, Helene Keable, E. Kirsten Dahl  
*Ethical Practice in Child and Adolescent Analysis and Psychotherapy: Protecting Safety in a Therapeutic Environment* by Anita G. Schmukler, Paula G. Atkeson, Helene Keable, and E. Kirsten Dahl provides a detailed study of ethical dilemmas of the child therapist and the child analyst, whose work with children and their parents presents unique and perplexing problems. The book examines both the unconscious motives for ethical lapses and addresses ways in which such behavior may be prevented. It addresses working with parents, while maintaining privacy for the child, pitfalls for the child therapist and analyst, and ways in which the process of supervision, a cornerstone of clinical training, may lead to departure from ethical principles. *Ethical Practice in Child and Adolescent Analysis and Psychotherapy* addresses the benefits and risks of presenting and writing about clinical cases, examining the field of working as consultant in custody cases and the role of ethical practice from a historical perspective. Pivotal is the role of the unconscious processes of transference and countertransference, processes that are acknowledged but often not fully comprehended. Contributions on ethics and forensic work by Moisy Shopper, MD, and contributions on ethical writing about psychodynamic work by Denia G. Barrett, MSW.
