Companion volume to Cinemeducation Volume 1 Cinemeducation, Volume 2 outlines a comprehensive approach to using film in graduate and medical education. It provides readers with a wide array of film excerpts ready for immediate application in the classroom. Each excerpt includes the counter time, year of release, names of actors, a short description of the movie and the scene being highlighted as well as discussion questions. Entire chapters are dedicated to reality television, mainstream television, music videos, documentaries and YouTube. Clearly structured, this second volume dives deep into human experiences. Authors from five continents have composed 49 chapters devoted to a wide assortment of new topics relevant to medical and postgraduate healthcare education. Some of the specific issues covered include substance abuse, gambling, dealing with tragedy, diabetes, heart disease, chronic illness and obstetrics as well as mental health problems. Some films portray health care professionals both positively and negatively and these are presented with rich detail. A wide variety of specialties and different health careers are covered. All of these areas converge on the common ground of compassion in the medical experience. This book is ideal for the undergraduate or postgraduate classroom. All healthcare educators will appreciate its comprehensive scope and innovative approach, including those in psychology, social services, dentistry and veterinary science.
