The Solar Fraud: Why Solar Energy Won't Run the World, Second Edition Howard C. Hayden

Solar energy has its uses many of them but running the world isnt one of them. Solar energy has always and will always provide some fraction of the worlds energy budget. The question is how much? By and large, that fraction has been on a steady decline not just for decades, but for centuries.

The Solar Fraud presents the physics behind the hype, explaining why the problem is not technology, but rather the dilute nature of sunlight.
