The French Revolution: Recent Debates and New Controversies (Rewriting Histories)

The French Revolution is a collection of key texts at the forefront of current research and interpretation, challenging orthodox assumptions concerning the origins, development and long-term historical consequences of the Revolution. The volume includes a clear and thorough introduction by the editor which contextualises the historiographical controversies, especially those dating from 1989. The articles are woven into a sophisticated narrative, which covers areas including the inevitability of the Terror, subsequent issues for nineteenth-century French history, the intellectual connection, the later role of Napoleon, and the feminist dimension.
