SUMMARY In his twenty-nine years, Matthew Moxon had done virtually nothing with his record-breaking IQ and unparalleled problem solving abilities. He'd been content with his lower-class existence: counting cards at the local casino, and using the winnings to finance his ever-expanding comic book collection. His life was blissfully uneventful until one morning, a dangerous fall lands him in the emergency room, and he discovers a tumor is pressing against his brain. Unable to afford experimental but potentially life-saving surgery, Moxon takes drastic action. He volunteers for 'Arena Mode', the year 2041's most vicious sporting event, where superhumans fight in an urban combat zone for a multi-billion dollar prize. Moxon is forced to battle opponents possessing ungodly speed, strength, and abilities once thought to exist only across the pages of superhero comics – and he's armed with nothing more than his rapidly-diminishing brain cells. With the odds stacked impossibly against him, he fights to not only survive the wrath of the other competitors, but to unlock the mysteries buried within the Arena itself.
